

Jeevintha

Frontend Developer

+91 9360267638 | jeevithajeevi6234@gmail.com | [linkedin](#) | [Portfolio](#) | [Github](#)

Technical Skills

- ❖ **Frontend Development:** React.js, Tailwind, JavaScript, HTML, CSS, Bootstrap
- ❖ **Programming:** Python, Data Structures and Algorithms
- ❖ **Tools:** Git, MS Office, VS Code, Figma, Github
- ❖ **Other:** Typewriting (Distinction in English - Higher Level, Govt. Certified)

Certifications

- ❖ **Responsive Web Design**
Mastered the principles of creating responsive and accessible web interfaces using HTML, CSS, and modern design frameworks.
- ❖ **JavaScript Algorithms and Data Structures**
Acquired skills in solving algorithmic challenges, OOPS, Functional Programming, Asynchronous Javascript and implementing efficient data structures using JavaScript.

Experience

Frontend Developer Projects

- ❖ **Super Fit** :
Built a comprehensive fitness tracking application using **React.js**, leveraging **React Hooks (useState, useEffect)** and **Context API** for state management. Implemented **responsive UI** with **Tailwind CSS** utilizing **flex/grid** layouts and custom **animations**. Key features include:
 - Dynamic workout volume calculation and progress tracking
 - Custom reusable components for workout forms and analytics
 - **Local storage** integration for persistent data
- ❖ **Jeevizon** :
Developed a **responsive e-commerce** platform an Amazon clone using modern web technologies:
 - Built interactive product carousels and dynamic product galleries using **HTML, CSS** and **JavaScript**
 - Implemented smooth horizontal scrolling **navigation** for product sections
 - Created **responsive layouts** with flexbox and media queries for all screen sizes
 - Designed intuitive user flows with seamless **sign-up/login** pages.
